

CAMPANA

Located at Km 97 on the right hand margin of the Parana de las Palmas, the branch of the Parana River on which Mitre Channel is located. Besides having considerable port and commercial activities Campana also has a good industrial infrastructure; outstanding are TENARIS SIDERCA, the manufacturers of seamless and steel pipes and the ESSO oil distillery, among other industries. It is also growing as an alternative port to Buenos Aires for certain cargoes, particularly fruit.

Port installations and main berths from upriver downwards are:

TENARIS – SIDERCA TERMINAL (Km 98,5): Owned by Tenaris – Siderca.
